

3 November 1964

OFFICE MEMORANDUM

TO : CI/RMO
FROM : CI/MRO
SUBJECT : Comments on CS Name Check Course
REFERENCE : CI/RMO Memo, 14 October 1964,
"Revised Working Draft Syllabus"

As already reported orally, the following are the comments on Units I, IV, XI, XII, and XIII of the referenced syllabus.

25X1A9a Unit I is okay as is. [REDACTED] has agreed (reluctantly, in view of other commitments) to undertake this lecture, with the understanding that others will share in the chore.

Unit III. The word is input.

25X1A9a Unit IV, which [REDACTED] will give, is scheduled for 2 hours.
25X1A9a [REDACTED] believes 30 minutes will be plenty. Since it is the last lecture on its day, he can run as long or as short as he wants. Perhaps the schedule should show 1 hour as the lecture period.

Unit XI should not designate the lecturer until DDP/TRO has resolved the issue with OTR. In Block 3, it might be useful to include an item on querying the field (for example, when there is a reference to a document but no document).

25X1A9a Unit XII will be handled by [REDACTED]-provided that the course is given in Headquarters building, and that the topic will refer largely to the second half of the "lecture objectives."

Unit XIII is fine except that the 201 listing and OI codes have no name check application, and should be omitted.

25X1A9a
